

Finger Puppets

Colour, cut, and put on a show

How to play

Colour each puppet in, cut around the outside line, then wrap the two bands around your finger and tape them.

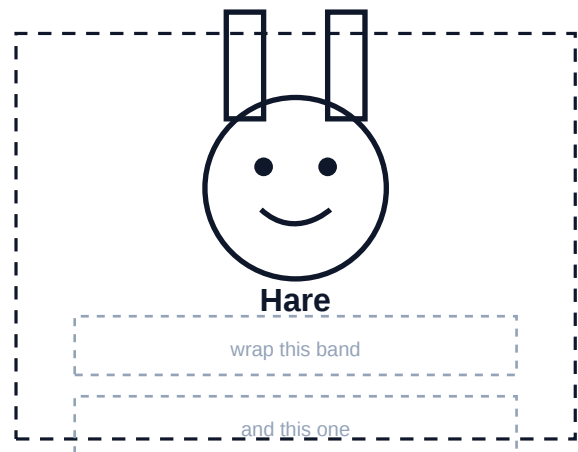

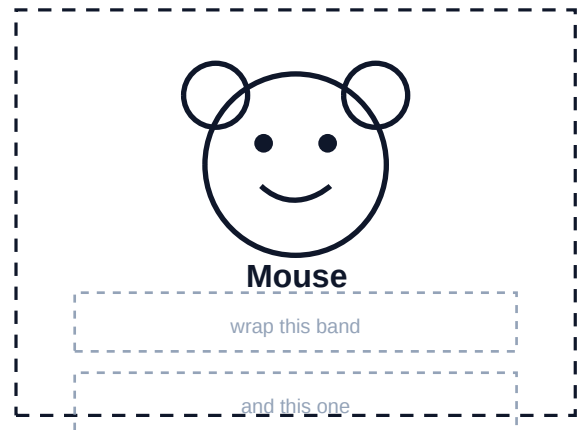

Finger Puppets

How to play

Colour each puppet in, cut around the outside line, then wrap the two bands around your finger and tape them.

Put on a Show

Ideas for your puppets

Once your puppets are made, try one of these:

1. Two puppets meet for the first time. One is very shy.
2. One puppet has lost something important. The other helps look for it.
3. The puppets find a door in a tree. Where does it go?
4. One puppet tells a joke. The other does not get it at first.
5. Something is making a strange noise in the woods at night.

A stage is easy: turn a chair around, or cut a window in a cardboard box. The audience only needs to see the puppets, not you.
