

My First Little Business

Plan it before you make it

My big idea

What will you make, sell, or do?

Who is it for?

Neighbours? Classmates? Family?

What do I need to start?

List everything and who can help.

What will it cost me?

Add up the things you have to buy first.

What will I charge?

Charge more than it costs you, or there is no profit.

My First Little Business

Keep track once you begin

Day	Sold	Money in	Money out

What went well?

What would I do differently next time?
